

Client Testimonial:

St James Place Wealth management

Why St. James's Place?

The St. James's Place Wealth Management Group offers a comprehensive range of wealth management services to individuals and businesses. With £44.3 billion funds under management, we are well established as one of the UK's leading wealth management organisations.

At the heart of our business is the St. James's Place Partnership; the exclusive advisory arm of the St. James's Place Wealth Management Group. The Partnership consists of c.1,900 advisers and advisory businesses; the majority are sole traders with a growing trend in recent years for multi-adviser businesses to join the company.

The Academy

The St. James's Place Academy provides what we believe is an unrivalled development programme for outstanding individuals who have no previous experience of giving personal financial advice.

The Academy offers exceptional training and development and dedicated ongoing support, helping you to start your own wealth management business and continue to build it into a successful practice.

Tom Horan of St James place

"In looking for individuals to select to join the Academy, we identified military professionals as one of our key target audiences.

Our strategic partnership with Census Recruitment has seen us develop relationships with military and ex-military professionals who want to consider the opportunity to build and run their own business in wealth management.

The individuals who have been referred to us from Census have been high quality and a credit to Census' expertise in recruitment."

The Partnership

Advice from the St. James's Place Wealth Management Group is provided by the St. James's Place Partnership. Partners aim to work with their clients in partnership to provide comprehensive financial planning solutions.

The Partners are an experienced and expert group of financial advisers, working from a network of offices across the UK. Owners of their own businesses, our Partners enjoy the flexibility and financial rewards that entrepreneurship can bring, whilst benefiting from the dedicated support and distinctive approach to wealth management that St. James's Place offers.

Since commencing trading in January 1992, we have always looked to attract those advisers, both independent and employed, who can demonstrate a strong track record in providing high quality advice to clients. In addition, we also look for a commitment to attain the required level of professional qualification if this has not already been secured.

In return, we believe we offer a depth and breadth of support and financial security for such advisers, their clients and clients' families that is difficult to match in the marketplace.

About Census Recruitment

Census Recruitment is an ex-military only recruitment business supporting companies in a wide variety of technical and professional sectors. For the past two years we have been introducing high calibre ex-military individuals with a desire to work in financial services with St James Place Wealth Management and their academy training programme.
